 - (i) procure for the benefit of the Principal and its Authorised Users the right to continue to use and exercise the rights granted to the Principal under this clause 5.10 in accordance with this Contract; or
 - (ii) modify or replace any relevant Contract Documentation and Materials, Contract Processes, PSD/MGF Contractor's Activities or Works or any part of them so that no further infringement will occur and so that the modified or replaced Contract Documentation and Materials, Contract Processes, PSD/MGF Contractor's Activities or Works or relevant part of them in respect

of which Intellectual Property is assigned or licensed pursuant to this clause 5.10 will:

- (ii) the PSD/MGF Contractor acknowledges and agrees that the approval of any Variation proposed by the PSD/MGF Contractor in accordance with clause 5A.2(c) will not:
 - A. relieve the PSD/MGF Contractor from its liabilities or obligations (including those arising out of any warranties given under this Contract); or
 - B. entitle the PSD/MGF Contractor to an extension of time; or
 - C. adjustment to the Contract Sum,

whether under this Contract or otherwise according to any Law.

- B. will be and remain at all relevant times fit for their intended purpose;
- are accurate, complete, appropriate for the Works and consistent with the Final Principal Design Documentation; and
- D. are at a level of detail which is sufficient to permit the Principal's Representative to determine whether:
 - the B.10 Shop Drawings comply with this Contract and the Final Principal Design Documentation; and
 - 2) the Works which will be constructed in accordance with the B.10 Shop Drawings will comply with this Contract,

however, such a determination will not limit or excuse the PSD/MGF Contractor from satisfying its obligations under this Contract.

- (iv) provide any further information required by the Principal's Representative; and
- (v) submit any amendment to the B.10 Shop Drawings to the Principal's Representative (in which case this clause 5A.4(a) will re-apply).

be a SWM Station Works Defect, the PSD/MGF Contractor must promptly (and in any event, within 10 Business Days of the survey referred to in clause 6.3(a)) notify the Principal's Representative in writing, providing full particulars of the alleged SWM Station Works Defect.

- (b) The PSD/MGF Contractor must provide the Principal's Representative with any additional information reasonably requested in relation to the alleged SWM Station Works Defect.
- (c) If the PSD/MGF Contractor gives the Principal a notice under clause 6.4(a) in respect of an alleged SWM Station Works Defect, the Principal's Representative must, within 10 Business Days of receiving the PSD/MGF Contractor's notice under clause 6.4(a) or any additional information under clause 6.4(b) (as applicable) or such longer period as the parties may agree (acting reasonably), issue a notice to the PSD/MGF Contractor that contains one of the following:

6.5 No liability

The PSD/MGF Contractor will not be entitled to:

- (a) make (nor will the Principal be liable upon) any Claim arising out of or in any way in connection with the SWM Station Works, including in relation to the SWM Station Works being unsuitable, unsatisfactory or detrimental for the proper execution of the Works or the carrying out of the PSD/MGF Contractor's Activities in accordance with this Contract; or

and the relevant SWM Station Work subsequently proves to be unsuitable, unsatisfactory or detrimental for the proper execution of the Works or the carrying out of the PSD/MGF Contractor's Activities in accordance with this Contract.

7. Variations

7.1 Proposed Variations

- (a) At any time prior to the expiry of the Defects Rectification Period (but without limiting clauses 9 and 14.4) the Principal's Representative may issue a document titled "Variation Proposal Request" to the PSD/MGF Contractor, which will set out details of a proposed Variation that the Principal is considering.
- (b) Within 10 Business Days of the receipt of a "Variation Proposal Request", or at such other time as is approved by the Principal's Representative, the PSD/MGF Contractor must provide the Principal's Representative with a written notice in which the PSD/MGF Contractor sets out:
 - (i) the PSD/MGF Contractor's proposed adjustments to the Contract Sum and the Payment Breakdown Schedule, to be determined on the basis of:
 - A. the prices and rates set out in Part A of Schedule 12 (where applicable or where it is otherwise reasonable to use them for valuing the Variation); or
 - B. to the extent clause 7.1(b)(i)A does not apply, the reasonable prices and rates (which are to be exclusive of any amount for Overhead Costs or profit), to be increased by the following percentage of that amount:
 - 1) where the proposed adjustment to the Contract Sum is an increase, the relevant percentage set out in item 18 of Schedule 1 in respect of clause 7.4(b)(ii)A which will be in total satisfaction of all the PSD/MGF Contractor's Overhead Costs and profit; or
 - 2) where the proposed adjustment to the Contract Sum is a decrease, the relevant percentage set out in item 18 of Schedule 1 in respect of clause 7.4(b)(ii)B of the

total amount for off-site Overhead Costs (as described in Part B of Schedule 12) and profit;

- (ii) the effect (if any) that the proposed Variation will have on the PSD/MGF Contractor's Program (including any extension of time required to a Date for Construction Completion or Date for Milestone Achievement (if any) and the measures the PSD/MGF Contractor proposes to take to avoid, mitigate or minimise the effect of the proposed Variation on the PSD/MGF Contractor's Program);
- (iii) any Approvals required to implement the proposed Variation, and the effect of the proposed Variation on any existing Approvals or the PSD/MGF Contractor's ability to comply with those Approvals;
- (iv) the effect (if any) which the proposed Variation will have on the PSD/MGF Contractor's ability to satisfy its obligations under this Contract (including any warranties given by the PSD/MGF Contractor under this Contract) or exercise its rights under this Contract;
- (v) the PSD/MGF Contractor's view on the likely impact of the proposed Variation on any Interface Works, including whether the PSD/MGF Contractor considers that an Interface Works Change will, or is likely to, be required to enable the proposed Variation to be implemented or as a consequence of the proposed Variation and if so, any change that could be made to the proposed Variation (including any change to the timing of the proposed Variation or to the manner in which the Variation is proposed to be implemented) to reduce or avoid the impact of the proposed Variation on the relevant Interface Works; and
- (vi) such other details as may be reasonably required by the Principal's Representative.
- (c) The Principal will not be obliged to proceed with any proposed Variation that is the subject of a "Variation Proposal Request".

7.2 Variation Orders

- (a) Whether or not the Principal's Representative has issued a "Variation Proposal Request" under clause 7.1, the Principal's Representative may at any time prior to expiry of the Defects Rectification Period (but without limiting clauses 9 and 14.4) direct the PSD/MGF Contractor to carry out a Variation by issuing a written document titled "Variation Order", in which the Principal's Representative will state one of the following:
 - (i) the proposed adjustments to the Contract Sum and the Payment Breakdown Schedule set out in the PSD/MGF Contractor's notice under clause 7.1 are agreed and the Contract Sum and Payment Breakdown Schedule will be adjusted accordingly; or

- (ii) any adjustment to the Contract Sum will be determined under clause 7.4(b).
- (b) There is no limitation on the power of the Principal's Representative to direct a Variation, and no Variation or direction to carry out a Variation will invalidate this Contract.
- (c) The PSD/MGF Contractor must comply with a "Variation Order" irrespective of:
 - (i) the nature, extent or value of the work the subject of the Variation;
 - (ii) the location or timing (including the impact on any Date for Construction Completion or Date for Milestone Achievement) of the work involved in the Variation; or
 - (iii) any Dispute related to the Variation, without prejudice to the PSD/MGF Contractor's rights under clause 17.
- (d) The PSD/MGF Contractor's entitlement (if any) to an extension of time and delay costs arising out of or in connection with a Variation will be dealt with under clause 11 and not this clause 7. The valuation of Variations under clause 7.4 will exclude any amount for costs incurred by the PSD/MGF Contractor as a result of any delay or disruption caused by the Variation.
- (e) Except as directed in a Variation Order or where the Principal's Representative approves a Variation proposed by the PSD/MGF Contractor under clause 7.6(c), the PSD/MGF Contractor will not be entitled to vary or change the Works or the Temporary Works.

7.3 Options

The Principal's Representative may, by written notice given to the PSD/MGF Contractor at any time within the period stated in Schedule 18, exercise any Option. Commencing upon the issue of such a notice by the Principal's Representative, the Principal and the PSD/MGF Contractor must perform their obligations under this Contract on the basis that the Contract Sum, the SWTC and the provisions of this Contract will be adjusted as set out in Schedule 18 for the relevant Option.

For the avoidance of doubt:

- (a) the Principal is not under any obligation whatsoever to exercise; and
- (b) the PSD/MGF Contractor is not entitled to make, nor will the Principal be liable upon, any Claim in respect of the Principal not exercising,

any Option.

Where the Principal does not exercise its discretion to exercise an Option, the Principal may, either by itself or by third parties, undertake the work contemplated by the relevant Option.

The exercise of an Option by the Principal's Representative under this clause 7.3 will not:

- (c) relieve the PSD/MGF Contractor from its liabilities or obligations (including those arising out of any warranties given under this Contract);
- (d) limit or otherwise affect the Principal's rights against the PSD/MGF Contractor or the PSD/MGF Contractor's rights against the Principal (including those arising out of any warranties given under this Contract);
- (e) entitle the PSD/MGF Contractor to an extension of time,

whether under this Contract or otherwise according to any Law.

7.3A Installation Procurement Notice with Installation Activities

If the Installation Subcontractor enters into the Installation Subcontract with the PSD/MGF Contractor pursuant to clause 2A.8, the Contract Sum will be adjusted to include:

- (a) the agreed subcontract price under the Installation Subcontract;
- (b) a fixed amount for the PSD/MGF Contractor's costs for the supervision of the Installation Subcontractor calculated based on the schedule of rates set out in Part C of Schedule 12; and
- (c) the margin set out in Part C of Schedule 12 as applied to the agreed subcontract price under the Installation Subcontract.

7.3B No escalation

10.13 Financial Assessment

Without limiting or otherwise restricting clause 10.12, the PSD/MGF Contractor acknowledges and agrees that:

- (a) the Principal may, during the term of the Contract, either itself, or through the engagement of private sector service providers, undertake ongoing financial assessments ("Financial Assessment") of the PSD/MGF Contractor and any Subcontractors;
- (b) the Financial Assessment may be undertaken at three monthly (or longer) intervals from the date of commencement of the Works; and
- (c) it must, if requested by the Principal's Representative, within 10 Business Days of receiving such request, provide any documents, information and evidence as is reasonably required by the Principal's Representative under, out of, or in connection with the Financial Assessment.

10.14 National Greenhouse and Energy Reporting Act 2007 (Cth)

The PSD/MGF Contractor acknowledges and agrees that:

(a) if any of the PSD/MGF Contractor's Activities, or the activities of any of the PSD/MGF Contractor's personnel, in connection with the PSD/MGF Contractor's Activities (the "Relevant Matters") constitute a "facility" within the meaning of the NGER Legislation, then, for the purposes of the NGER Legislation, the PSD/MGF Contractor has operational control of that facility and will comply with any obligations arising in respect of the Principal's activities under the NGER Legislation;

- (b) if, despite the operation of clause 10.14(a), the Principal incurs, or (but for this clause) would incur, a liability under or in connection with the NGER Legislation as a result of or in connection with any of the Relevant Matters, and the NGER Legislation provides that such liability can be transferred by the Principal or the NSW Government or any of its agencies to the PSD/MGF Contractor, the PSD/MGF Contractor must, on the written request of the Principal, do all things reasonably necessary to ensure the liability is transferred to the PSD/MGF Contractor;
- (c) if the Principal requests it, the PSD/MGF Contractor must provide Greenhouse Data to the Principal's Representative:
 - (i) to the extent that, in a manner and form that, and at times that, will enable the Principal to comply with the NGER Legislation irrespective of whether the Principal or the PSD/MGF Contractor or any other person has an obligation to comply with the NGER Legislation in connection with any Relevant Matters; and
 - (ii) otherwise as requested by the Principal from time to time;
- (d) the PSD/MGF Contractor must also provide to the Principal's Representative all Greenhouse Data and other information which the PSD/MGF Contractor provides to any other person under the NGER Legislation in connection with any Relevant Matters, at the same time as the PSD/MGF Contractor provides that Greenhouse Data or other information to that other person;
- (e) the PSD/MGF Contractor must:
 - (i) collect and record all such Greenhouse Data as may be required to enable reporting under the NGER Legislation or enable the PSD/MGF Contractor to discharge its obligations under this clause 10.14, and keep that Greenhouse Data for at least 7 years after the end of the year in which the Relevant Matters occur; and
 - (ii) permit any persons appointed or authorised by the Principal to examine, monitor, measure, copy, audit and/or verify the Greenhouse Data and co-operate with and provide all reasonable assistance to any such persons (including by doing such things as giving access to premises, plant and equipment, producing and giving access to documents and answering any relevant questions);
- (f) the Principal may provide or otherwise disclose the Greenhouse Data and any other information which the Principal obtains under this clause 10.14 to any other person, and may otherwise use the Greenhouse Data and other information for any purpose as the Principal sees fit; and
- (g) nothing in this clause 10.14 is to be taken as meaning that the Principal has agreed to perform any statutory obligation that the PSD/MGF Contractor may have regarding the provision of Greenhouse Data to any Authority.

10.15 Waste Reduction and Purchasing Policy

The PSD/MGF Contractor must:

- (a) use its best endeavours to reduce wastage and increase the use of recycled materials in accordance with the GREP; and
- (b) provide reports to the Principal's Representative in such format and within such times as may be required by the Principal's Representative for the use by the Principal in complying with its GREP obligations to report performance.

11. Time and Progress

11.1 Rate of Progress

- (a) The PSD/MGF Contractor must:
 - (i) immediately commence, and thereafter regularly and diligently progress the Design and Supply Activities;
 - (ii) proceed with the:
 - A. Design and Supply Activities; and
 - B. Installation Activities upon award of the Installation Subcontract under clause 2A.8,

with due expedition and without delay; and

- (iii) achieve:
 - A. Construction Completion of each Portion by the relevant Date for Construction Completion; and
 - B. Milestone Achievement of each Milestone by the relevant Date for Milestone Achievement.
- (b) Without limiting the PSD/MGF Contractor's rights under the SOP Act, the PSD/MGF Contractor must not suspend the progress of the whole or any part of PSD/MGF Contractor's Activities except where directed by a court or by the Principal's Representative under clause 11.15.
- (c) Without limiting the next paragraphs of this clause 11.1 or clause 11.5, the PSD/MGF Contractor must give the Principal's Representative reasonable advance notice of any information, documents or directions required by the PSD/MGF Contractor to carry out the PSD/MGF Contractor's Activities in accordance with this Contract.
- (d) The Principal and the Principal's Representative will not be obliged to furnish information, documents or directions earlier than the Principal or the Principal's Representative, as the case may be, should reasonably have anticipated at the date of this Contract.

- (e) The Principal's Representative may, by written notice expressly stated to be pursuant to this clause 11.1, direct in what order and at what time the various stages or parts of the PSD/MGF Contractor's Activities must be performed. If the PSD/MGF Contractor can reasonably comply with the direction, the PSD/MGF Contractor must do so. If the PSD/MGF Contractor cannot reasonably comply, the PSD/MGF Contractor must notify the Principal's Representative in writing, giving reasons. For the avoidance of doubt, no direction by the Principal's Representative will constitute a direction under this clause 11.1 unless the direction is in writing and expressly states that it is a direction under this clause 11.1.
- (f) If compliance with a written direction expressly stated to be pursuant to this clause 11.1 causes the PSD/MGF Contractor to necessarily incur more or less cost than otherwise would have been incurred, the difference will be dealt with and valued as if it were a Variation except where the direction was necessary because of, or arose out of or in any way in connection with, a failure by the PSD/MGF Contractor to comply with its obligations under this Contract.
- (g) Such costs shall be the PSD/MGF Contractor's sole entitlement, and the PSD/MGF Contractor will not be entitled to make, and the Principal will not be liable upon, any other Claim, arising out of or in any way in connection with any direction pursuant to this clause 11.1.

11.2 Date for Commencement of Installation Activities

- (a) The Principal's Representative must give the PSD/MGF Contractor's Representative:
 - (i) 12 months';
 - (ii) 6 months'; and
 - (iii) 3 months',

prior notice of the estimated date for commencement of the Installation Activities, including whether there is likely to be any change to the Scheduled Date for Commencement of the Installation Activities.

- (b) The Date for Commencement of the Installation Activities is:
 - (i) the Scheduled Date for Commencement of the Installation Activities; or
 - (ii) such other date as notified to the PSD/MGF Contractor in writing by the Principal's Representative, which date must not be less than 60 days after the date of the notice.

11.3 The PSD/MGF Contractor's Programming Obligations

The PSD/MGF Contractor must:

(a) based on the Initial PSD/MGF Contractor's Program, prepare and provide a PSD/MGF Contractor's Program that complies with and includes the details

required by this Contract and any requirements of the Principal's Representative. The parties acknowledge and agree that the Initial PSD/MGF Contractor's Program is deemed to have been submitted to the Principal's Representative for review under clause 10.10 and not been rejected by the Principal's Representative;

- (b) submit the PSD/MGF Contractor's Program to the Principal's Representative for its review in accordance with clause 10.10 at any time required by the SWTC:
- (c) when directed to do so by the Principal's Representative, prepare and submit to the Principal's Representative specific detailed programs and schedules for the PSD/MGF Contractor's Activities within 5 Business Days of receipt of such a direction;
- (d) update, revise and submit to the Principal's Representative an updated PSD/MGF Contractor's Program:
 - (i) on award of the Installation Subcontract pursuant to clause 2A.8;
 - (ii) to allow for delays to non-critical activities, extensions of time granted by the Principal's Representative in accordance with clause 11.11, the actual progress made by the PSD/MGF Contractor, Variations and any other changes to the PSD/MGF Contractor's Activities but excluding claims for extensions of time to any Date for Construction Completion or Date for Milestone Achievement which have been submitted by the PSD/MGF Contractor to the extent that they have not been granted by the Principal's Representative; and
 - (iii) on a monthly basis or whenever directed to do so by the Principal's Representative;
- (e) prepare and provide for the Principal's Representative's information only versions of all PSD/MGF Contractor's Programs prepared in accordance with clause 11.3(d) that also allow for those claims for an extension of time that have been made by the PSD/MGF Contractor in accordance with clause 11.9 but to which the Principal's Representative has not yet responded in accordance with clause 11.11;
- (f) comply with the requirements of the Principal's Representative and its other obligations under this Contract in preparing and using programs, including the requirements in clause 10.10; and
- (g) not depart from the current version of the PSD/MGF Contractor's Program that has been submitted to the Principal's Representative for review under clause 10.10 and not been rejected by the Principal's Representative within 15 Business Days.

11.4 PSD/MGF Contractor not Relieved

Without limiting clause 10.10, no submission of, review of or comment upon, acceptance or rejection of, or any failure to review or comment upon or reject, a

program (including the PSD/MGF Contractor's Program) prepared by the PSD/MGF Contractor, by the Principal's Representative in connection with the program, will:

- (a) relieve the PSD/MGF Contractor from or alter its liabilities or obligations under this Contract, including the obligation under clause 11.1;
- (b) evidence or constitute notification of a delay or the claiming of or the granting of an extension of time to any Date for Construction Completion or Date for Milestone Achievement or a direction by the Principal's Representative to compress, disrupt, prolong or vary any, or all, of the PSD/MGF Contractor's Activities; or
- (c) affect the time for the performance of the Principal's or the Principal's Representative's obligations under this Contract.

11.5 Compression by PSD/MGF Contractor

If the PSD/MGF Contractor chooses to compress the PSD/MGF Contractor's Activities or otherwise accelerate progress:

- (a) neither the Principal nor the Principal's Representative will be obliged to take any action to assist or enable the PSD/MGF Contractor to achieve Construction Completion of a Portion before the relevant Date for Construction Completion or Milestone Achievement of a Milestone before the relevant Date for Milestone Achievement (as applicable);
- (b) the time for carrying out the obligations of the Principal or the Principal's Representative will not be affected; and
- (c) the PSD/MGF Contractor does so at its own cost and risk.

11.6 Importance of Milestone Achievement and Construction Completion on Time

The PSD/MGF Contractor acknowledges:

- (a) the importance of complying with its obligations under clause 11.1 to enable Interface Contractors to carry out and complete the activities of the Interface Contractors within the time required by their respective Interface Works Contracts, including so as to enable the Principal to pursue improved public transport in Sydney; and
- (b) that the Date for Construction Completion of any Portion or the Date for Milestone Achievement of any Milestone will only be extended in accordance with clause 11.11 or clause 11.13, or when so determined under clause 17.

11.7 Risk and Notice of Delay

(a) Except as expressly provided for in clause 11.11, the PSD/MGF Contractor accepts the risk of all delays in, and disruption to, the carrying out of the PSD/MGF Contractor's Activities and performance of its obligations under this

Contract both before and after any Date for Construction Completion or Date for Milestone Achievement.

- (b) The PSD/MGF Contractor must, within 5 Business Days of the commencement of an occurrence causing any delay or which is likely to cause delay, give the Principal's Representative written notice of:
 - (i) any delay or likely delay to the carrying out of the PSD/MGF Contractor's Activities:
 - (ii) details of the cause; and
 - (iii) how any Date of Construction Completion or Date of Milestone Achievement (as applicable) is likely to be affected (if at all).

11.8 Entitlement to Claim Extension of Time

- (a) If the PSD/MGF Contractor is, or will be, delayed on or prior to the Date for Construction Completion of a Portion or the Date for Milestone Achievement of a Milestone by reason of:
 - (i) an act or omission of the Principal or the Principal's Representative, including any breach of this Contract or Variation directed by the Principal's Representative under clause 7 but excluding any:
 - A. PSD/MGF Contractor initiated Variation that is approved by the Principal's Representative under clause 7.6(c)(i); or
 - B. act or omission of the Principal or the Principal's Representative authorised or permitted by this Contract; or
 - (ii) a cause set out in item 20 of Schedule 1,

in a manner that will delay it from achieving Construction Completion of a Portion by the relevant Date for Construction Completion or Milestone Achievement of a Milestone by the relevant Date for Milestone Achievement (as applicable), the PSD/MGF Contractor may claim an extension of time to the relevant Date for Construction Completion or Date for Milestone Achievement (as applicable).

- (b) If the PSD/MGF Contractor is, or will be, delayed from achieving:
 - (i) Construction Completion of a Portion after the relevant Date for Construction Completion; or
 - (ii) Milestone Achievement of a Milestone after the relevant Date for Milestone Achievement,

(as applicable) by reason of an act or omission of the Principal or the Principal's Representative, including any breach of this Contract or Variation directed by the Principal's Representative under clause 7 but excluding any:

- (iii) PSD/MGF Contractor initiated Variation that is approved by the Principal's Representative under clause 7.6(c)(i); or
- (iv) act or omission of the Principal or the Principal's Representative authorised or permitted by this Contract,

in a manner which will delay it in achieving Construction Completion of the Portion or Milestone Achievement of the Milestone (as applicable), the PSD/MGF Contractor may claim an extension of time to the relevant Date for Construction Completion or Date for Milestone Achievement (as applicable).

11.9 Claim for Extension of Time

To claim an extension of time the PSD/MGF Contractor must:

- (a) within 15 Business Days after the PSD/MGF Contractor's initial notice under clause 11.7(b), submit a written claim to the Principal's Representative for an extension of time to the relevant Date for Construction Completion or Date for Milestone Achievement (as applicable), which:
 - (i) gives detailed particulars of the:
 - A. delay and the occurrence causing the delay; and
 - B. activities that are critical to the maintenance of progress in the execution of the PSD/MGF Contractor's Activities;
 - (ii) states the number of days for which the extension of time is claimed together with the basis of calculating that period, including evidence that the:
 - A. conditions precedent to an extension of time in clause 11.10 have been met; and
 - B. occurrence actually delayed or will delay it in achieving Construction Completion or Milestone Achievement (as applicable) in the manner described in clause 11.8; and
 - (iii) attaches an updated PSD/MGF Contractor's Program which complies with the requirements of clause 11.3(e); and
- (b) if the effects of the delay continue for more than 20 Business Days after the commencement of the occurrence causing the delay and the PSD/MGF Contractor wishes to claim an extension of time in respect of the further delay, submit a further written claim to the Principal's Representative:
 - every 15 Business Days after the first written claim made under clause 11.9(a) (or such other period as may be approved by the Principal's Representative in writing);
 - (ii) within 5 Business Days after the end of the effects of the delay; and

(iii) containing the information required by clause 11.9(a) (except to the extent otherwise directed by the Principal's Representative).

The Principal's Representative may, within 10 Business Days of receiving the PSD/MGF Contractor's claim or further claim for an extension of time for Construction Completion or Milestone Achievement (as applicable), by written notice to the PSD/MGF Contractor, request additional information in relation to the claim or further claim. The PSD/MGF Contractor must, within 10 Business Days of receiving such request, provide the Principal's Representative with the information requested.

11.10 Conditions Precedent to Extension of Time

It is a condition precedent to the PSD/MGF Contractor's entitlement to an extension of time to any relevant Date for Construction Completion or Date for Milestone Achievement that:

- (a) the PSD/MGF Contractor gives the notices and claims required by clauses 11.7(b) and 11.9 as required by those clauses;
- (b) the PSD/MGF Contractor complies with any request for additional information under clause 11.9 within the time required;
- (c) the cause of the delay is beyond the reasonable control of the PSD/MGF Contractor; and
- (d) the PSD/MGF Contractor is actually, or will be, delayed in achieving Construction Completion or Milestone Achievement (as applicable):
 - on or prior to the Date for Construction Completion of the relevant Portion or the Date for Milestone Achievement of the relevant Milestone (as applicable) by reason of one or more of the causes set out in clause 11.8(a) in the manner described in clause 11.8(a); or
 - (ii) after the Date for Construction Completion of the relevant Portion or the Date for Milestone Achievement of the relevant Milestone (as applicable) by reason of an act or omission of the Principal or the Principal's Representative, including any breach of Contract or Variation directed by the Principal's Representative under clause 7 but excluding any:
 - A. PSD/MGF Contractor initiated Variation that is approved by the Principal's Representative under clause 7.6(c)(i); or
 - B. act or omission of the Principal or the Principal's Representative authorised or permitted by this Contract,

in the manner described in clause 11.8(b).

If the PSD/MGF Contractor fails to comply with the conditions precedent in this clause 11.10:

(e) the Principal will not be liable upon any Claim by the PSD/MGF Contractor; and

(f) the PSD/MGF Contractor will be absolutely barred from making any Claim against the Principal,

arising out of or in any way in connection with the event giving rise to the delay and the delay involved.

11.11 Extension of Time

- (a) Subject to clause 11.12, if the conditions precedent in clause 11.10 have been satisfied, the Principal's Representative must determine the reasonable extension of time to the Date for Construction Completion of a Portion or the Date for Milestone Achievement of a Milestone (as applicable) to which the PSD/MGF Contractor is entitled either:
 - (i) within 15 Business Days after the latest of the:
 - A. PSD/MGF Contractor's written claim under clause 11.9(a)(ii); and
 - B. provision by the PSD/MGF Contractor of any additional information regarding the claim required under clause 11.9,
 - (ii) in the case of an ongoing delay, within 15 Business Days after receiving a claim with complies with:
 - A. clause 11.9(a);
 - B. clause 11.9(b)(i); or
 - C. clause 11.9(b)(ii),

by giving the PSD/MGF Contractor:

- (iii) written notice of the determination which includes the extension of time granted and the adjusted Date for Construction Completion or Date for Milestone Achievement (as applicable), with reasons where the extension of time granted is for a shorter period of time than that claimed by the PSD/MGF Contractor; or
- (iv) if no extension is granted, written notice of that decision, with reasons.
- (b) A failure of the Principal's Representative to grant a reasonable extension of time to the Date for Milestone Achievement or Date for Construction Completion within the relevant 15 Business Day period will not cause an affected Date for Milestone Achievement or Date for Construction Completion to be set at large, but nothing in this clause 11.11 will prejudice any right of the PSD/MGF Contractor to damages.

11.12 Reduction in Extension of Time

The Principal's Representative will reduce any extension of time to the relevant Date for Construction Completion or Date for Milestone Achievement (as applicable) it would otherwise have determined under clause 11.11 to the extent that:

- (a) the PSD/MGF Contractor or any of its Associates caused or contributed to the delay;
- (b) the PSD/MGF Contractor failed to take all reasonably practicable steps necessary to preclude the cause of the delay or to avoid or minimise the consequences of the delay:
- (c) a delay caused by an Excusable Cause of Delay and a delay caused other than by an Excusable Cause of Delay occurred at the same time and the PSD/MGF Contractor would have been delayed even if the Excusable Cause of Delay had not occurred; or
- (d) the PSD/MGF Contractor failed to comply with:
 - (i) a Project Cooperation and Integration Deed; or
 - (ii) its obligations under this Contract in connection with the Interface Contractors.

and such failure caused or contributed to the delay the subject of the PSD/MGF Contractor's claim.

For the purposes of clause 11.12(c), "Excusable Cause of Delay" means:

- (e) on or prior to the Date for Construction Completion of a Portion or Date for Milestone Achievement of a Milestone (as applicable), a delay caused by one or more of the causes set out in clause 11.8(a) in the manner described in clause 11.8(a); or
- (f) after the Date for Construction Completion of a Portion or Date for Milestone Achievement of a Milestone (as applicable), a delay caused by reason of an act or omission of the Principal or the Principal's Representative, including any breach of Contract or Variation directed by the Principal's Representative under clause 7 but excluding any:
 - (i) PSD/MGF Contractor initiated Variation that is approved by the Principal's Representative under clause 7.6(c)(i); or
 - (ii) act or omission of the Principal or the Principal's Representative authorised or permitted by this Contract,

in the manner described in clause 11.8(b).

11.13 Unilateral Extensions

(a) Whether or not the PSD/MGF Contractor has made, or is entitled to make, a claim for an extension of time to any relevant Date for Construction Completion or Date for Milestone Achievement (as applicable), or is entitled to be, or has

been, granted an extension of time to any relevant Date for Construction Completion or Date for Milestone Achievement (as applicable) under clause 11.11, the Principal's Representative may, in its absolute discretion, for any reason and at any time, from time to time by written notice to the PSD/MGF Contractor and the Principal, unilaterally extend any Date for Construction Completion or Date for Milestone Achievement by any period specified in a notice to the PSD/MGF Contractor and the Principal.

- (b) The Principal's Representative is not required to exercise its discretion under this clause 11.13 for the benefit of the PSD/MGF Contractor.
- (c) The discretion to grant an extension of time under this clause 11.13 may only be exercised by the Principal's Representative and the exercise or failure to exercise that discretion is not a "direction" which can be the subject of a Dispute pursuant to clause 17 or in any other way opened up, reviewed or exercised by any other person in any forum (including in any expert, the IDAR Panel or any arbitrator or court).

11.14 Delay Damages

- (a) For each day by which the Date for Construction Completion of a Portion or the Date for Milestone Achievement of a Milestone is extended due to a cause set out in item 21 of Schedule 1, the PSD/MGF Contractor will be entitled to be paid the additional costs reasonably and necessarily incurred by the PSD/MGF Contractor as a direct result of the delay the subject of the extension of time (as determined by the Principal's Representative) up to but not exceeding the maximum daily amount set out item 22 in Schedule 1.
- (b) The amounts payable pursuant to this clause 11.14 will be a limitation upon the Principal's liability to the PSD/MGF Contractor for any delay or disruption that:
 - (i) the PSD/MGF Contractor encounters in carrying out the PSD/MGF Contractor's Activities; and
 - (ii) arises out of, or in any way in connection with, the breach of this Contract by the Principal,

and the PSD/MGF Contractor will not be entitled to make, nor will the Principal be liable upon, any Claim in these circumstances other than for the amount which is payable by the Principal under this clause 11.14.

11.15 Suspension

The Principal's Representative may direct the PSD/MGF Contractor to suspend and, after a suspension has been directed, to re-commence, the carrying out of all or a part of the PSD/MGF Contractor's Activities. Nothing in this clause limits the Principal's rights under clause 2.13.

If the suspension under this clause 11.15 arises in the circumstance set out in clause 2.13(f) then clauses 2.13(f) and 2.13(g) will apply, otherwise where it arises as a result of:

- (b) a cause other than the PSD/MGF Contractor's failure to perform its obligations in accordance with this Contract:
 - (i) a direction to suspend under this clause 11.15 will entitle the PSD/MGF Contractor to:
 - A. be paid by the Principal the additional costs reasonably and necessarily incurred by it as a direct result of the suspension as determined by the Principal's Representative; and
 - B. an extension of time to any relevant Date for Construction Completion or Date for Milestone Achievement (as applicable) where it is otherwise so entitled under this clause 11;
 - (ii) the PSD/MGF Contractor must take all steps possible to mitigate the additional costs incurred by it as a result of the suspension; and
 - (iii) the PSD/MGF Contractor will not be entitled to make, and the Principal will not be liable upon, any Claim arising out of, or in any way in connection with, the suspension other than as allowed under this clause 11.15(b).

11.16 Compression

- (a) The Principal's Representative may direct the PSD/MGF Contractor to compress the PSD/MGF Contractor's Activities by taking those measures which are necessary:
 - (i) if the PSD/MGF Contractor makes a claim under clause 11.9, to overcome or minimise the extent and effects of some or all of the delay, which may include taking the measures necessary in order to achieve (as applicable):
 - A. Milestone Achievement of a Milestone by the relevant Date for Milestone Achievement; or
 - B. Construction Completion of a Portion by the relevant Date for Construction Completion; or
 - (ii) to complete the PSD/MGF Contractor's Activities in advance of the dates for completion of those activities shown on the PSD/MGF Contractor's Program, including to achieve (as applicable):

- A. Milestone Achievement of a Milestone prior to the relevant Date for Milestone Achievement; or
- B. Construction Completion of a Portion prior to the relevant Date for Construction Completion.
- (b) The Principal's Representative will have the right to direct that the PSD/MGF Contractor's Activities be compressed by means of overtime, additional crews, additional shifts, resequencing of the PSD/MGF Contractor's Activities, or otherwise, whether or not the PSD/MGF Contractor's Activities are progressing without delay or in accordance with the PSD/MGF Contractor's Program.
- (c) Prior to carrying out any compression of the PSD/MGF Contractor's Activities, the PSD/MGF Contractor must provide the Principal's Representative with a plan for such compression, including:
 - (i) the methodology required for an effective and economical compression of the PSD/MGF Contractor's Activities; and
 - (ii) where the compression is pursuant to a direction under this clause 11.16, an estimate of the additional direct costs for complying with the direction, including sufficient information to support the estimate.
- (d) In respect of a direction given by the Principal's Representative under clause 11.16(a)(i):
 - (i) the Principal's Representative may give such a direction whether or not the cause of delay for which the PSD/MGF Contractor has made its claim under clause 11.9 entitles the PSD/MGF Contractor to an extension of time to any relevant Date for Milestone Achievement or Date for Construction Completion;
 - (ii) the Principal's Representative may at any time by notice in writing withdraw any direction given under clause 11.16(a)(i), after which the PSD/MGF Contractor will be entitled to any extension of time to which it may have otherwise been entitled in respect of the cause of delay in respect of which the PSD/MGF Contractor made a claim under clause 11.9:
 - (iii) any extension in accordance with clause 11.16(d)(ii) will be determined having regard to the effect which the compression of the PSD/MGF Contractor's Activities taken by the PSD/MGF Contractor prior to the withdrawal of the direction has had on mitigating the delay which is the subject of the claim for an extension of time made by the PSD/MGF Contractor under clause 11.9;
 - (iv) if the Principal's Representative's direction to compress under clause 11.16(a)(i) only applies to part of a delay, the PSD/MGF Contractor's entitlement to any extension of time which it otherwise would have had if a direction to compress had not been given under clause 11.16(a)(i), will only be reduced to the extent to which the direction to compress requires the PSD/MGF Contractor to compress to overcome the delay; and

- (e) In respect of a direction given by the Principal's Representative under clause 11.16(a)(ii):
 - (i) the direction may specify revised Dates for Milestone Achievement, and/or Dates for Construction Completion as a consequence of the acceleration. Those revised dates may be earlier than the then current Dates for Milestone Achievement and Dates for Construction Completion;
 - (ii) where the PSD/MGF Contractor considers that such a direction constitutes a Variation, the PSD/MGF Contractor must give the Principal's Representative notice under and in accordance with clause 20.1;
 - (iii) the PSD/MGF Contractor must comply with such a direction except to the extent:
 - A. it is not reasonably possible for the PSD/MGF Contractor to perform the proposed acceleration; and
 - B. the PSD/MGF Contractor, in a notice required under clause 20.1, gives a detailed explanation of the reasons why it is not reasonably possible for the PSD/MGF Contractor to perform the proposed acceleration;
 - (iv) the Principal's Representative may, at any time, by notice in writing to the PSD/MGF Contractor withdraw such a direction;

(f) The PSD/MGF Contractor will not be entitled to make any Claim, and releases and waives any entitlement it may have to a Claim, against the Principal in respect of any compression of the PSD/MGF Contractor's Activities, except as provided for under this clause 11.16.

12. Payment

12.1 PSD/MGF Contractor's Payment Entitlements

- (a) Subject to clause 12.6, clause 18.12 and any other right to set-off that the Principal may have, the Principal must pay the PSD/MGF Contractor the Contract Sum and any other amounts expressly payable by the Principal to the PSD/MGF Contractor under this Contract, in accordance with the procedure in this clause 12.
- (b) The Payment Breakdown Schedule sets out (among other things):
 - (i) those parts of the PSD/MGF Contractor's Activities which must be completed before the PSD/MGF Contractor may claim a progress payment with respect to that part;
 - (ii) the payment the PSD/MGF Contractor may claim for each progress payment; and
 - (iii) any limitations or other constraints on the PSD/MGF Contractor's ability to make claims for payment.

In addition to the Payment Breakdown Schedule, clause 12.2(d) sets out further payment constraints that are to apply.

(c) The Contract Sum is not subject to rise and fall.

12.2 Payment Claims

(a) The PSD/MGF Contractor may give the Principal's Representative a claim for payment on account of the Contract Sum and any other amount expressly payable by the Principal to the PSD/MGF Contractor under the Contract on or after each Payment Claim Date.

- (b) The PSD/MGF Contractor agrees that each Payment Claim Date is the date on and from which the PSD/MGF Contractor is entitled to make a Progress Claim for the purposes of the SOP Act (including section 13(1B) of the SOP Act).
- (c) Each claim for payment must:
 - generally follow the form of the Payment Breakdown Schedule and otherwise be in such form as the Principal's Representative reasonably requires;
 - (ii) include all the evidence reasonably required by the Principal's Representative of the amount of work completed in accordance with this Contract and the amount payable;
 - (iii) for each monthly claim pursuant to clause 12.2 (a "Progress Claim"), set out the amount claimed:

 - (ii) in respect of a Claim which is barred by clause 20.6 or any other provision of this Contract;

12.3 Payment Statements

The Principal's Representative must (on behalf of the Principal), within 10 Business Days of receiving a Progress Claim which complies with the requirements of clause 12.2, a Completion Payment Claim under clause 12.9 or a Final Payment Claim under clause 12.11, issue to the PSD/MGF Contractor and the Principal a payment statement which identifies the Progress Claim, Completion Payment Claim or Final Payment Claim to which it relates, and which sets out:

- (a) its determination of the value of the PSD/MGF Contractor's Activities carried out in accordance with this Contract, using the methodology in clause 12.2(c)(iii) where the payment statement relates to a Progress Claim;

- (d) the amount (if any) which the Principal's Representative believes to be then payable by the Principal to the PSD/MGF Contractor on account of the Contract Sum and which the Principal proposes to pay to the PSD/MGF Contractor or the amount which the Principal's Representative believes to be then payable by the PSD/MGF Contractor to the Principal; and
- (e) if the amount in clause 12.3(d) is less than the amount claimed in the Progress Claim, Completion Payment Claim or Final Payment Claim:

 - (ii) if the reason for the difference is that the Principal proposes to retain, deduct, withhold or set-off payment for any reason, the reason for the Principal retaining, deducting, withholding or setting-off payment.

The issue of a payment statement by the Principal's Representative does not constitute approval of any work nor will it be taken as an admission or evidence that the part of the Works or PSD/MGF Contractor's Activities covered by the payment statement has been satisfactorily carried out in accordance with this Contract.

Failure by the Principal's Representative to set out in a payment statement an amount, or the correct amount, which the Principal is entitled to retain, deduct, withhold or set-off from the amount which would otherwise be payable to the PSD/MGF Contractor by the Principal will not prejudice the Principal's right to subsequently exercise its right to retain, deduct, withhold or set-off any amount under this Contract.

Where the Principal has notified the PSD/MGF Contractor in accordance with clause 21(f)(iv) that it no longer proposes to issue a recipient created tax invoice for a taxable supply made by the PSD/MGF Contractor to the Principal, the PSD/MGF Contractor must, within 2 Business Days after receipt of the payment statement issued by the Principal's Representative give the Principal's Representative a tax invoice (which complies with the GST Law) for the amount of the payment statement.

- (b) In responding to the PSD/MGF Contractor under the SOP Act, the Principal's Representative acts as the agent of the Principal and the Principal authorises the Principal's Representative to issue payment schedules on its behalf (without affecting the Principal's right to issue a payment schedule itself).

 - (i) serve the payment schedule itself; or
 - (ii) notify the PSD/MGF Contractor that the Principal's Representative does not have authority from the Principal to issue the payment schedule on its behalf.

- (d) For the purposes of this Contract and the SOP Act (including sections 9 and 10 of the SOP Act), the amount of:
 - (i) the progress payment to which the PSD/MGF Contractor is entitled under this Contract; and

 - (ii) if it is subsequently determined pursuant to the Contract that the PSD/MGF Contractor was not entitled under the Contract to payment of some or all of the adjudicated amount that was paid by the Principal ("overpayment"), the overpayment will be a debt due and payable by the PSD/MGF Contractor to the Principal which the PSD/MGF Contractor must pay to the Principal upon demand and in respect of which the PSD/MGF Contractor is not entitled to claim or exercise any set-off, counterclaim, deduction or similar right of defence; and
 - (iii) if the adjudicator's determination is quashed, overturned or declared to be void, the adjudicated amount then becomes a debt due and payable by the PSD/MGF Contractor to the Principal upon demand and in respect

of which the PSD/MGF Contractor is not entitled to claim or exercise any set-off, counterclaim, deduction or similar right of defence.

- (f) For the purposes of section 17(3) of the SOP Act, the PSD/MGF Contractor irrevocably chooses the Resolution Institute as the "authorised nominating authority" (as that term is defined in the SOP Act) for any adjudication application it may make under the SOP Act in respect of the subject matter of this Contract.
- (g) Without limiting clauses 12.8 or 18.12, the Principal may withhold any amount that is less than or equal to the amount claimed to be owed under a payment withholding request served on the Principal pursuant to Division 2A of Part 3 of the SOP Act.
- (h) If the Principal withholds from money otherwise due to the PSD/MGF Contractor any amount that is less than or equal to the amount claimed to be owed under a payment withholding request served on the Principal pursuant to Division 2A of Part 3 of the SOP Act, then:
 - (i) the Principal may plead and rely upon Division 2A of Part 3 of the SOP Act as a defence to any claim for the money by the PSD/MGF Contractor from the Principal; and
 - (ii) the period during which the Principal retains money due to the PSD/MGF Contractor pursuant to an obligation under Division 2A of Part 3 of the SOP Act will not be taken into account for the purpose of determining:
 - A. any period for which money owed by the Principal to the PSD/MGF Contractor has been unpaid; and
 - B. the date by which payment of money owed by the Principal to the PSD/MGF Contractor must be made.
- (i) The PSD/MGF Contractor agrees not to commence proceedings to recover any amount withheld by the Principal pursuant to a payment withholding request served on the Principal pursuant to Division 2A of Part 3 of the SOP Act.
- (j) Any amount paid by the Principal pursuant to section 26C of the SOP Act will be a debt due from the PSD/MGF Contractor to the Principal.
- (k) If the Principal withholds money pursuant to a payment withholding request served on the Principal pursuant to Division 2A of Part 3 of the SOP Act and the PSD/MGF Contractor:
 - (i) pays the amount claimed to be due under the adjudication application to which the payment withholding claim relates; or
 - (ii) becomes aware that the adjudication application to which the payment withholding claim relates has been withdrawn,

then the PSD/MGF Contractor must so notify the Principal within 5 Business Days of the occurrence of the event in clause 12.17(k)(i) or clause 12.17(k)(ii)

(as applicable) by providing to the Principal a statement in writing in the form of a statutory declaration together with such other evidence as the Principal may require evidencing that the amount has been paid or the adjudication application has been withdrawn (as the case may be).

- (I) If the PSD/MGF Contractor holds retention monies from any of its Subcontractors, the PSD/MGF Contractor must:
 - (i) comply with the requirements of Division 2 of the SOP Regulation; and
 - (ii) provide the Principal's Representative with a copy of any notification that the PSD/MGF Contractor gives to the Secretary (as defined in the SOP Act) pursuant to Division 2 of the SOP Regulation within 24 hours of providing such notification.
- (m) The PSD/MGF Contractor indemnifies and must keep indemnified the Principal against any liability, claim, damages, expense, costs or loss suffered or incurred by the Principal arising out of a suspension by a Subcontractor of work which forms part of the PSD/MGF Contractor's Activities pursuant to the SOP Act unless and except to the extent that the suspension is due to non-payment by the Principal of an amount that is due and payable under this Contract.
- (n) Nothing in this Contract will be construed to:
 - (i) make any act or omission of the Principal in contravention of the SOP Act (including failure to pay an amount becoming due under the SOP Act) a breach of this Contract (unless the Principal would have been in breach of this Contract if the SOP Act had no application); or
 - (ii) subject to clause 12.17(n)(i), give to the PSD/MGF Contractor rights under this Contract which extend or are in addition to rights given to the PSD/MGF Contractor by the SOP Act in respect of any act or omission of the Principal in contravention of the SOP Act.

- (g) Each party must promptly make the results of tests available to the other and to the Principal's Representative.
- (h) Where the Principal's Representative directs that materials or work be tested, the costs of and incidental to testing must be valued under clause 7.4 and must be borne by the Principal or paid by the Principal to the PSD/MGF Contractor unless:

 - (i) no separate Date for Construction Completion of the Works is specified in this Contract;
 - (ii) Construction Completion of the Works is achieved by achieving Construction Completion of all Portions;
 - (iii) Construction Completion of the Works will be taken to have occurred once Construction Completion of all Portions has occurred; and

(iv) the Date of Construction Completion of the Works will be taken to be the Date of Construction Completion of the last Portion to reach Construction Completion.

13.4 Completion

- (a) When the PSD/MGF Contractor considers that it has achieved Completion, the PSD/MGF Contractor must notify the Principal's Representative and the Independent Certifier in writing and provide them with an executed certificate in the form of Schedule 28.

- (c) If the Independent Certifier issues a notice under clause 13.4(b)(ii), the PSD/MGF Contractor must proceed with the PSD/MGF Contractor's Activities and thereafter, when it considers that it has achieved Completion, it must give the Principal's Representative and the Independent Certifier written notice to that effect after which clauses 13.4(a) and 13.4(b) will reapply.
- (d) The PSD/MGF Contractor acknowledges and agrees that the Principal's Representative or the Operator may provide comments to the Independent Certifier (with a copy to the PSD/MGF Contractor) in relation to any non-compliance of the PSD/MGF Contractor's Activities with this Contract:

13.5 Unilateral Issue of Notice of Milestone Achievement, Notice of Construction Completion or Notice of Completion

If at any time a notice required to be given by the PSD/MGF Contractor to the Principal's Representative under clauses 13.2(d), 13.2(f), 13.3(d), 13.3(f), 13.4(a) or 13.4(c) is not given by the PSD/MGF Contractor yet the Principal's Representative is of the opinion that Milestone Achievement of a Milestone, Construction Completion of any Portion or Completion (as applicable) has been achieved, the Principal's Representative may direct the Independent Certifier to issue (as applicable):

(a) a Notice of Milestone Achievement under clause 13.2(e)(i) for that Milestone;

- (b) a Notice of Construction Completion under clause 13.3(e)(i) for the Portion; or
- (c) a Notice of Completion under clause 13.4(b)(i).

13.6 Hand Over upon Construction Completion

The PSD/MGF Contractor acknowledges that the Principal will require a progressive handover of the Works. On Construction Completion of each Portion, the PSD/MGF Contractor must:

- (a) hand control of the relevant Works to the Principal; and
- (b) provide the Principal with all spare parts, consumables and special tools as required by the SWTC.

13.7 Part of the Works or a Portion

- (a) Without limiting clause 13.7(b), further Portions may be created by the Principal's Representative by issuing a written direction to the PSD/MGF Contractor which clearly identifies for each Portion:
 - (i) the Works and the Temporary Works;
 - (ii) the Date for Construction Completion; and
 - (iii) the respective amounts of liquidated damages,

all as determined by the Principal's Representative (acting reasonably).

- (b) If part of a Portion has reached a stage equivalent to Construction Completion but another part of the Portion has not reached Construction Completion and the parties cannot agree upon the creation of new Portions, the Principal's Representative may, by written notice to the PSD/MGF Contractor, determine that the respective parts will be Portions.
- (c) Without limiting clause 13.7(a) or 13.7(b), the Principal may, after the PSD/MGF Contractor is given written notice by the Principal's Representative, occupy or use any part of a Portion although the whole of the Portion has not reached Construction Completion.
- (d) If the Principal's Representative gives a notice under clause 13.7(b):
 - (i) the Principal must allow the PSD/MGF Contractor reasonable access to the part of the Portion referred to in the notice and being occupied or used by the Principal, to enable the PSD/MGF Contractor to bring the Portion of which the area being occupied or used forms part to Construction Completion; and
 - (ii) this will not otherwise limit or affect the obligations of the parties under this Contract, including the obligation of the PSD/MGF Contractor to achieve Construction Completion of the relevant Portion of which the area being occupied or used forms part, by the relevant Date for Construction Completion.

13.8 Delay Liquidated Damages

- (a) The Principal and the PSD/MGF Contractor agree and acknowledge that:
 - (i) the Principal is pursuing a policy of building Sydney Metro City & Southwest and the Works for purposes that include achieving the objectives set out in clause 1.7; and
 - (ii) the PSD/MGF Contractor's Activities represent a most important element of the building of Sydney Metro City & Southwest, as a major new public transport link which, together with Sydney Metro Northwest (and their integration), will service the needs of Sydney, including the needs of its workforce and its economy, and will provide frequent rapid transit services to handle projected population increases, create employment both during and after the PSD/MGF Contractor's Activities, improve the efficiency of the Sydney public transport network and improve the local environment.
- (b) The PSD/MGF Contractor acknowledges and agrees that its failure to achieve Construction Completion of each Portion by the required Dates for Construction Completion will not only result in direct losses to the Principal, but will also lead to the failure of the Principal to achieve its policy objectives to the immediate detriment of the Principal and of those on whose behalf the policy objectives are pursued. The loss arising from this failure of the Principal to achieve its policy objectives is not capable of easy or precise calculation.
- (c) Subject to clause 13.8(f), if Construction Completion of a Portion has not occurred by the relevant Date for Construction Completion, the PSD/MGF Contractor must pay the Principal liquidated damages at the rates stated in Schedule 2 for every day after the relevant Date for Construction Completion up to and including:
 - (i) the Date of Construction Completion of the Portion; or
 - (ii) the date that this Contract is terminated under clause 16,

whichever is first.

- (d) The parties agree that the liquidated damages provided for in Schedule 2:
 - (i) represent proper, fair and reasonable amounts recoverable by the Principal arising from the failure of the PSD/MGF Contractor to achieve Construction Completion of a Portion by the relevant Date for Construction Completion and do not constitute, nor are they intended to be, a penalty and have been freely agreed to by the PSD/MGF Contractor; and
 - (ii) will be recoverable from the PSD/MGF Contractor as a debt immediately due and payable to the Principal.
- (e) If clause 13.8(c) is found for any reason to be void, invalid or otherwise inoperative so as to disentitle the Principal from recovering liquidated damages,

the Principal will be entitled to recover general damages (including loss of revenue and loss of profits from the loss of use of the Works) as a result of the PSD/MGF Contractor failing to achieve Construction Completion of a Portion by the relevant Date for Construction Completion, but the PSD/MGF Contractor's liability for such damages (whether per day or in aggregate) will not be any greater than the liability which the PSD/MGF Contractor would have had if clause 13.8(c) had not been void, invalid or otherwise inoperative.

- (f) The PSD/MGF Contractor's aggregate liability under clauses 13.8(c) and 13.8(e):
 - (i) is limited to the amount set out in clause 15.2(b); and
 - (ii) will be the Principal's sole financial remedy against the PSD/MGF Contractor for failing to achieve Construction Completion of a Portion by the relevant Date for Construction Completion,

and the Principal will not be entitled to make, nor will the PSD/MGF Contractor be liable upon, any Claim in these circumstances other than for the amount for which the PSD/MGF Contractor is liable under this clause 13.8 (whether liquidated damages or, under clause 13.8(e), general damages). The sole remedy provision in this clause 13.8(f) relates to the delay itself and does not limit the Principal's rights with respect to an event giving rise to a delay or the consequences of that event (other than the delay) or limit or reduce the PSD/MGF Contractor's liability for any other acts, omissions or defaults (including the Principal's entitlement to damages other than liquidated damages) with respect to an event giving rise to delay or the consequences of that event.

Further, nothing in this clause 13.8(f) in any way limits the PSD/MGF Contractor's liability where this Contract is terminated by the Principal under clause 16 or otherwise at Law.

(g) The PSD/MGF Contractor acknowledges and agrees that the payment of liquidated damages pursuant to clause 13.8(c) and, where applicable, the payment of common law damages pursuant to clause 13.8(e), will not relieve the PSD/MGF Contractor of any of its obligations under this Contract.

13.9 Effect of Notice of Milestone Achievement, Notice of Construction Completion or Notice of Completion

- (a) A notice issued under clause 13.2(e)(i), 13.3(e)(i) or clause 13.4(b)(i) will not:
 - constitute approval by the Principal, the Principal's Representative or the Independent Certifier of the PSD/MGF Contractor's performance of its obligations under this Contract;
 - (ii) be taken as an admission or evidence that the relevant Milestone or Portion (as applicable) complies with the requirements of this Contract; or

- (iii) prejudice any rights or powers of the Principal, the Principal's Representative or the Independent Certifier.
- (b) Without limiting clause 13.9(a), the parties agree that, in the absence of manifest error on the face of the certification, the Independent Certifier's certification as set out in a Notice of Milestone Achievement, Notice of Construction Completion or Notice of Completion (as applicable) is final and binding on the parties for the purposes only of establishing that Milestone Achievement of the relevant Milestone, Construction Completion of the relevant Portion or Completion (as applicable) has occurred.

13.11 Support Services

- (a) If requested by the Principal in the Installation Procurement Notice pursuant to clause 2A.1(c), the PSD/MGF Contractor must carry out the Support Services in respect of each mechanical gap filler installed by the PSD/MGF Contractor:

14. Care of the Works, Risks and Insurance

14.1 Care of the Works

- (a) Except where it arises from an Excepted Risk, and without limiting the generality of the PSD/MGF Contractor's obligations, the PSD/MGF Contractor is responsible for the care of and bears the risk of, and indemnifies the Principal against any destruction, loss of, or damage to:

- (b) If the waiver referred to in clause 18.17(a) is held to be without effect or otherwise unenforceable, or if it is severed from this Contract, the PSD/MGF Contractor shall indemnify and keep the Principal indemnified at all times from and against all liability, claim, costs, expenses, losses, damages, fines or penalties that the Principal may suffer or incur out of the Principal's loss of the benefit of the waiver.

- (iii) enabling the Principal to exercise rights in connection with the Security Interest and this Contract.

20.6 Bar

If the PSD/MGF Contractor fails to comply with clauses 2.3(d), 20.1, 20.2, 20.3 or 20.5:

arising out of or in any way in connection with the relevant direction, event, circumstance, act, omission, fact, matter or thing (as the case may be) to which those clauses apply.

20.7 Other Provisions Unaffected

Nothing in clauses 20.1 to 20.6 will limit the operation or effect of any other provision of this Contract that requires the PSD/MGF Contractor to give notice to the Principal's Representative in order to preserve an entitlement to make a Claim against the Principal.

21. General Provisions Relating to GST

- (a) The parties acknowledge that unless otherwise expressly stated all amounts of monetary consideration in this Contract are exclusive of GST.
- (b) If GST is or becomes payable on a supply made by a party ("Supplier") under or in connection with this Contract, including the PSD/MGF Contractor's Activities or the Works, the party providing consideration for the supply ("Recipient") must pay an additional amount to the Supplier equal to the GST payable by the Supplier (or representative member of a GST group of which the Supplier is a member) in relation to the supply.

- (c) Any amount payable under clause 21(b) will be paid to the Supplier at the same time as the consideration for the supply is paid to the Supplier.
- (d) If any party is required under this Contract to reimburse or pay to the other party an amount (other than any payment on account of the Contract Sum) calculated by reference to a cost, expense, or an amount paid or incurred by that party, the amount of the reimbursement or payment will be reduced by the amount of any input tax credits to which that party (or representative member of a GST group of which that party is a member) is entitled in respect of any acquisition relating to that cost, expense or other amount.
- (e) Notwithstanding any other provision of this Contract, a party will not be obliged to pay any amount in respect of GST to the other party (whether under this clause 21 or otherwise) unless and until a tax invoice that complies with the GST Legislation has been issued by the Supplier in respect of that taxable supply.
- (f) The parties agree that unless otherwise agreed in writing, the following will apply to all taxable supplies made by the PSD/MGF Contractor to the Principal under or in connection with this Contract:
 - (i) the Principal will issue to the PSD/MGF Contractor a recipient created tax invoice ("RCTI") for each taxable supply made by the PSD/MGF Contractor to the Principal under this Contract;
 - (ii) the Principal will issue to the PSD/MGF Contractor an adjustment note for any adjustment event;
 - (iii) the PSD/MGF Contractor will not issue a tax invoice in respect of any taxable supply it makes to the Principal; and
 - (iv) the Principal may notify the PSD/MGF Contractor that it will no longer issue a RCTI for each taxable supply made by the PSD/MGF Contractor under this Contract, in which case, from that point in time, the Principal will not be required to issue RCTIs in respect of such supplies and the PSD/MGF Contractor will be required to issue tax invoices to the Principal (including under clause 12.3) as a condition precedent to the Principal being obliged to pay any amount in respect of GST to the PSD/MGF Contractor in respect of any such taxable supply.
- (g) Each party agrees to do all things, including providing invoices or other documentation, that may be necessary or desirable to:
 - (i) enable or assist the other party to claim input tax credits to the maximum extent possible; or
 - (ii) itself claim all input tax credits that might be available to it in order to reduce the amount recoverable from the other party under this Contract.
- (h) If the GST payable in relation to a supply made by the Supplier under this Contract varies from the additional amount paid by the other party under this clause 21 in respect of that supply, then the Supplier will provide a

corresponding refund or credit to or will be entitled to receive the amount of that variation from the other party (as appropriate).

23. NSW Guidelines

23.1 NSW Code and NSW Guidelines

In addition to terms defined in this document, terms used in this clause 23 have the same meaning as is attributed to them in the New South Wales Government's Implementation Guidelines to the NSW Code of Practice for Procurement: Building and Construction ("NSW Guidelines") (as published by the NSW Treasury July 2013 and updated in September 2017). The NSW Code and NSW Guidelines are available at www.procurepoint.nsw.gov.au.

23.2 Primary Obligation

- (a) The PSD/MGF Contractor must at all times comply with, and meet any obligations imposed by, the NSW Government's Code of Practice for Procurement (**NSW Code**) and the NSW Guidelines.
- (b) The PSD/MGF Contractor must notify the CCU and the Principal of any possible non-compliance with the NSW Code and NSW Guidelines and of remedial action taken, within 24 hours of becoming aware of the possible non-compliance.
- (c) Where the PSD/MGF Contractor engages a Subcontractor, the PSD/MGF Contractor must ensure that the contract imposes on the Subcontractor equivalent obligations to those in this clause 23, including that the Subcontractor must at all times comply with, and meet any obligations imposed by, the NSW Code and NSW Guidelines.
- (d) The PSD/MGF Contractor must not appoint or engage another party in relation to the Works where that appointment or engagement would breach a sanction imposed on the other party in relation to the NSW Code and NSW Guidelines.

23.3 Access and information

(a) The PSD/MGF Contractor must maintain adequate records of compliance with the NSW Code and NSW Guidelines by it, its Subcontractors and related entities.

- (b) The PSD/MGF Contractor must allow, and take reasonable steps to facilitate, authorised personnel (including personnel of the CCU) to:
 - enter and have access to sites and premises controlled by the PSD/MGF Contractor, including but not limited to the Site;

 - (iii) access information and documents;
 - (iv) inspect and copy any record relevant to the Works;
 - (v) have access to personnel; and
 - (vi) interview any person,

as is necessary for the authorised personnel to monitor and investigate compliance with the NSW Code and NSW Guidelines, by the PSD/MGF Contractor, its Subcontractors and related entities.

(c) The PSD/MGF Contractor, and its related entities, must agree to, and comply with, a request from authorised personnel (including personnel of the CCU) for the production of specified documents by a certain date, whether in person, by post or electronic means.

23.4 Sanctions

- (a) The PSD/MGF Contractor warrants that at the time of entering into this Contract, neither it, nor any of its related entities, are subject to a sanction in connection with the NSW Code and NSW Guidelines that would have precluded it from responding to a procurement process for work to which the NSW Code and NSW Guidelines apply.
- (b) If the PSD/MGF Contractor does not comply with, or fails to meet any obligation imposed by the NSW Code or NSW Guidelines, a sanction may be imposed against it in connection with the NSW Code or NSW Guidelines.
- (c) Where a sanction is imposed:
 - (i) it is without prejudice to any rights that would otherwise accrue to the parties; and
 - (ii) the State of NSW (through its agencies, Ministers and the CCU) is entitled to:
 - A. record and disclose details of non-compliance with the NSW Code and NSW Guidelines and the sanction; and
 - B. take them into account in the evaluation of future procurement processes and responses that may be submitted by the PSD/MGF Contractor, or its related entities, in respect of work to which the NSW Code or NSW Guidelines apply.

23.5 Compliance

- (a) The PSD/MGF Contractor bears the cost of ensuring its compliance with the NSW Code and NSW Guidelines, including in respect of any positive steps it is obliged to take to meet its obligations under the NSW Code and NSW Guidelines. The PSD/MGF Contractor is not entitled to make a claim for reimbursement or an extension of time from the Principal or the State of NSW for such costs.
- (b) Compliance with the NSW Code and NSW Guidelines does not relieve the PSD/MGF Contractor from responsibility to perform the PSD/MGF Contractor's Activities and any other obligation under the Contract, or from liability for any Defect in the Works or from any other legal liability, whether or not arising from its compliance with the NSW Code and NSW Guidelines.
- (c) Where a change in the Contract or the Works is proposed, and that change may, or may be likely to, affect compliance with the NSW Code and NSW Guidelines, the PSD/MGF Contractor must immediately notify the Principal (or nominee) of the change, or likely change and specify:
 - (i) the circumstances of the proposed change;
 - (ii) the extent to which compliance with the NSW Code and NSW Guidelines will be, or is likely to be, affected by the change; and
 - (iii) what steps the PSD/MGF Contractor proposes to take to mitigate any adverse impact of the change (including any amendments it proposes to a Workplace Relations Management Plan or Project Health and Safety Management Plan),

and the Principal will direct the PSD/MGF Contractor as to the course it must adopt within 10 Business Days of receiving notice.

3.7 No liability

- (a) The PSD/MGF Contractor and the Installation Subcontractor acknowledge that, without limiting the liability of the PSD/MGF Contractor (which continues to be responsible for the performance of its obligations under the Installation Subcontract), and without limiting the Principal's obligations under clause 4, the Principal will not be liable for any obligation or liability of the PSD/MGF Contractor under the Installation Subcontract by reason only of the Principal performing the PSD/MGF Contractor's obligations in accordance with the Installation Subcontract.
- (b) The PSD/MGF Contractor and the Installation Subcontractor each release the Principal from any such liability.

3.8 **PSD/MGF Contractor to compensate the Principal**

12. GST

(a) (Interpretation)

Except where the context suggests otherwise, terms used in this clause 11 have the same meanings given to those terms by the *A New Tax System (Goods and Services Tax) Act 1999* (Cth) (as amended from time to time).

Any part of a supply that is treated as a separate supply for GST purposes (including attributing GST payable to tax periods) will be treated as a separate supply for the purposes of this clause 11.

Unless otherwise expressly stated, all consideration to be provided under this deed (other than under this clause 11) is exclusive of GST. Any consideration that is specified to be inclusive of GST must not be taken into account in calculating the GST payable in relation to a supply for the purpose of this clause 11.

A reference to something done (including a supply made) by a party includes a reference to something done by any entity through which that party acts.

- (b) (Reimbursements) Any payment or reimbursement required to be made under this deed that is calculated by reference to a cost, expense, or other amount paid or incurred will be limited to the total cost, expense or amount less the amount of any input tax credit to which an entity is entitled for the acquisition to which the cost, expense or amount relates.
- (c) (Additional amount of GST payable) If GST becomes payable on any supply made by a party (Supplier) under or in connection with this deed:
 - (i) any party (Recipient) that is required to provide consideration to the Supplier for that supply must pay an additional amount to the Supplier equal to the amount of the GST payable on that supply (GST Amount), at the same time as any other consideration is to be first provided for that supply; and
 - (ii) the Supplier must provide a tax invoice to the Recipient for that supply, no later than the time at which the GST Amount for that supply is to be paid in accordance with clause 11(c)(i).

(d) (Variation of GST)

- (i) If the GST Amount recovered by the Supplier from the Recipient under clause 11(c) for a supply varies from the amount of GST paid or payable by the Supplier on that supply, then the Supplier will provide a corresponding refund or credit to, or will be entitled to receive the amount of that variation from, the Recipient.
- (ii) The Supplier must issue an adjustment note to the Recipient in respect of any adjustment event occurring in relation to a supply made under or in

connection with this deed within 20 Business Days after the Supplier becomes aware of the adjustment event.

(e) (No merger) This clause 11 will not merge on completion or termination of this deed.

- (b) The Installation Subcontractor must use reasonable endeavours to prevent any actions or conditions which may conflict with the Principal's best interests. In the event that such a conflict arises, the Installation Subcontractor shall immediately notify the Principal and take such steps as the Principal reasonably requires to resolve or otherwise deal with the conflict.

Notes

- This form is prepared for the purpose of section 175B of the Workers Compensation Act 1987, Schedule 2
 Part 5 Payroll Tax Act 2007 and section 127 of the Industrial Relation Act 1996. If this form is completed in
 accordance with these provisions, a principal contractor is relieved of liability for workers compensation
 premiums, payroll tax and remuneration payable by the subcontractor.
 - A principal contractor can be generally defined to include any person who has entered into a contract for the carrying out of work by another person (or other legal entity called *the subcontractor*) and where employees of the subcontractor are engaged in carrying out the work which is in connection with the principal contractor's business.
- 2. For the purpose of this Subcontractor's Statement, a principal contractor is a person (or other legal entity), who has entered into a contract with another person (or other legal entity) referred to as the subcontractor, and employees/workers of that subcontractor will perform the work under contract. The work must be connected to the business undertaking of the principal contractor.
- 3. Provide the unique contract number, title, or other information that identifies the contract.
- 4. In order to meet the requirements of s127 *Industrial Relations Act 1996*, a statement in relation to remuneration must state the period to which the statement relates. For sequential Statements ensure that the dates provide continuous coverage.
 - Section 127(6) of the Industrial Relations Act 1996 defines remuneration 'as remuneration or other amounts payable to relevant employees by legislation, or under an industrial instrument, in connection with work done by the employees.'
 - Section 127(11) of the Industrial Relations Act 1996 states 'to avoid doubt, this section extends to a principal contractor who is the owner or occupier of a building for the carrying out of work in connection with the building so long as the building is owned or occupied by the principal contractor in connection with a business undertaking of the principal contractor.'
- 5. Provide the date of the most recent payment claim.
- 6. For Workers Compensation purposes an exempt employer is an employer who pays less than \$7500 annually, who does not employ an apprentice or trainee and is not a member of a group.
- 7. In completing the Subcontractor's Statement, a subcontractor declares that workers compensation insurance premiums payable up to and including the date(s) on the Statement have been paid, and all premiums owing during the term of the contract will be paid.
- 8. In completing the Subcontractor's Statement, a subcontractor declares that all remuneration payable to relevant employees for work under the contract has been paid.
- 9. In completing the Subcontractor's Statement, a subcontractor declares that all payroll tax payable relating to the work undertaken has been paid.
- 10. It is important to note that a business could be both a subcontractor and a principal contractor, if a business 'in turn' engages subcontractors to carry out the work. If your business engages a subcontractor you are to also obtain Subcontractor's Statements from your subcontractors.

Statement Retention

The principal contractor receiving a Subcontractor's Statement must keep a copy of the Statement for the periods stated in the respective legislation. This is currently up to seven years.

Offences in respect of a false Statement

In terms of s127(8) of the *Industrial Relations Act 1996*, a person who gives the principal contractor a written statement knowing it to be false is guilty of an offence if:

- (a) the person is the subcontractor;
- (b) the person is authorised by the subcontractor to give the statement on behalf of the subcontractor; or
- (c) the person holds out or represents that the person is authorised by the subcontractor to give the statement on behalf of the subcontractor.

In terms of s175B of the Workers Compensation Act and clause 18 of Schedule 2 of the Payroll Tax Act 2007 a person who gives the principal contractor a written statement knowing it to be false is guilty of an offence.

- 1. This form is prepared for the purpose of section 175B of the Workers Compensation Act 1987, schedule 2 part 5 Payroll Tax Act 2007 and section 127 of the Industrial Relation Act 1996. If this form is completed in accordance with these provisions, a principal contractor is relieved of liability for workers compensation premiums, payroll tax and remuneration payable by the subcontractor.
 - A principal contractor can be generally defined to include any person who has entered into a contract for the carrying out of work by another person (or other legal entity called **the subcontractor**) and where employees of the subcontractor are engaged in carrying out the work which is in connection with the principal contractor's business.
- 2. For the purpose of this Subcontractor's Statement, a principal contractor is a person (or other legal entity), who has entered into a contract with another person (or other legal entity) referred to as the subcontractor, and employees/workers of that subcontractor will perform the work under contract. The work must be connected to the business undertaking of the principal contractor.
- 3. Provide the unique contract number, title, or other information that identifies the contract.
- 4. In order to meet the requirements of s127 *Industrial Relations Act 1996*, a statement in relation to remuneration must state the period to which the statement relates. For sequential Statements ensure that the dates provide continuous coverage.
 - Section 127(6) of the *Industrial Relations Act 1996* defines remuneration 'as remuneration or other amounts payable to relevant employees by legislation, or under an industrial instrument, in connection with work done by the employees.'
 - Section 127(11) of the Industrial Relations Act 1996 states 'to avoid doubt, this section extends to a principal contractor who is the owner or occupier of a building for the carrying out of work in connection with the building so long as the building is owned or occupied by the principal contractor in connection with a business undertaking of the principal contractor.'
- 5. Provide the date of the most recent payment claim.
- 6. For Workers Compensation purposes an exempt employer is an employer who pays less than \$7500 annually, who does not employ an apprentice or trainee and is not a member of a group.
- 7. In completing the Subcontractor's Statement, a subcontractor declares that workers compensation insurance premiums payable up to and including the date(s) on the Statement have been paid, and all premiums owing during the term of the contract will be paid.
- 8. In completing the Subcontractor's Statement, a subcontractor declares that all remuneration payable to relevant employees for work under the contract has been paid.
- 9. In completing the Subcontractor's Statement, a subcontractor declares that all payroll tax payable relating to the work undertaken has been paid.
- 10. It is important to note that a business could be both a subcontractor and a principal contractor, if a business 'in turn' engages subcontractors to carry out the work. If your business engages a subcontractor you are to also obtain Subcontractor's Statements from your subcontractors.

Statement Retention

The principal contractor receiving a Subcontractor's Statement must keep a copy of the Statement for the periods stated in the respective legislation. This is currently up to seven years.

Offences in respect of a false Statement

In terms of s127(8) of the Industrial Relations Act 1996, a person who gives the principal contractor a written statement knowing it to be false is guilty of an offence if:

- (d) the person is the subcontractor;
- (e) the person is authorised by the subcontractor to give the statement on behalf of the subcontractor; or
- (f) the person holds out or represents that the person is authorised by the subcontractor to give the statement on behalf of the subcontractor.

In terms of s175B of the Workers Compensation Act and clause 18 of schedule 2 of the Payroll Tax Act 2007 a person who gives the principal contractor a written statement knowing it to be false is guilty of an offence.

Certification Methodology

1. INDEPENDENT CERTIFIER - OBJECTIVES OF CERTIFICATION METHODOLOGY

The two key objectives of this Certification Methodology are to:

- (a) describe the Independent Certifier's methodology for the performance of the Services; and
- (b) provide a basis for development of a Certification Plan in accordance with clause 4.8(a)(i) of this deed.

Table 1 sets out key principles in relation to the Certification Methodology of the Independent Certifier.

Table 1: Core Services and application to Certification Methodology

RFT indications for Independent Certifier approach	Application to Certification Methodology
"the Independent Certifier will only be required to review and certify Design Documentation for Design Stage 3 as provided by Sydney Metro." (RFT Volume 1 Cl 4.1.1)	The Independent Certifier will become an informed Independent Certifier in Design Stage 1 and Design Stage 2, and provide notification only if any elements do not (or may not) comply.
"the Independent Certifier is not required to carry out "first principles" calculations or "proof engineering" (RFT Volume 1 Cl 4.1.1)	The Independent Certifier's design review levels will be risk-based and involve the Principal in rating of non-compliance risks.
"Sydney Metro will have primary responsibility for surveillance and monitoring of the Contractor's construction activities, including witnessing construction trials and commissioning tests" (RFT Volume 1 Cl. 4.1.4)	The Independent Certifier to adopt a surveillance and monitoring 'by-exception-program' that integrates with the Principal's competency and capacity.
"The Independent Certifier will be entitled to rely upon a variety of reports, certificates and other information provided to it by either Sydney Metro or the Contractors as being true and correct" (RFT Volume 1 Cl 4.1.4)	The Independent Certifier's Completion Phase Services certificates to be based on a balanced mix of primary and secondary evidence.

2. CERTIFICATION OBLIGATIONS TO BE ADDRESSED BY CERTIFICATION METHODOLOGY

The Independent Certifier's Certification Methodology incorporates the Independent Certifier's understanding of key certification obligations in the Core Services.

A detailed overview of how the Independent Certifier will address all certification obligations will be included in the Certification Plan, with a comprehensive appendix that cross-references the Independent Certifier's plans for all obligations.

TEAM MOBILISATION AND CERTIFICATION PLAN

This section addresses how the Independent Certifier will ensure that intended outcomes for independent certification are understood by the Independent Certifier's team, clearly stated in the Certification Plan, and directly linked to the Principal's project outcomes.

3.1 Core team mobilisation

The Independent Certifier's core team will be mobilised immediately. The initial activity will be a kick-off meeting or series of meetings with the Principal and alignment workshops with relevant contractors and other stakeholders. The Independent Certifier will further clarify the role and responsibilities of the Independent Certifier, build rapport and develop a culture based on openness and trust.

The level of resources in the Independent Certifier's team will be lean, consistent with the workload. A resourcing schedule will be included in each Certification Plan and be initially based on the Independent Certifier's tender and further discussions. The Independent Certifier's Representative and sponsors will regularly meet to ensure the Independent Certifier team strategies are in place to meet or exceed the Principal's expectations.

Trust and accountability will be the glue to open, honest and transparent discussions and the Independent Certifier will have a central role in creating and nurturing this culture. As part of the Independent Certifier's mobilization, the Independent Certifier will run a workshop involving the Independent Certifier's core team, key members from the Principal, the contractor and other relevant key stakeholders.

3.2 Preparation of the Certification Plan and implementation of a Quality Management System

At commencement of the Services, the Independent Certifier will develop a Certification Plan that will address the Principal's intended certification outcomes in detail in accordance with this deed. The Certification Plan will be developed in an iterative approach and the Independent Certifier will utilise a variety of appropriate consultation techniques such as workshops with key decision makers and interviews with stakeholders.

The primary goal of each Certification Plan will be to document the Independent Certifier's resources, governance, strategies, processes and procedures to deliver the Services. In preparing the Certification Plan the Independent Certifier will consult with relevant parties to ensure their expectations and requirements are appropriately reflected in the Certification Plan. Documented processes, methodology, sub-plans and commitment to timeframes will be specific and relevant to the works the subject of this deed. The Certification Plan for this deed will be based on other certification plans the Independent Certifier and its Providers have prepared for other Sydney Metro projects, to the extent that they are relevant to the Works. The Independent Certifier will practically update the Certification Plan to apply any lessons, from Sydney Metro projects and from other similar projects which the Independent Certifier and its Providers have been engaged, where relevant to the independent certification. Potential changes to the Certification Plan must be discussed with Sydney Metro prior to any changes being incorporated into the Certification Plan.

The Independent Certifier will apply general quality management principles and relevant standards in the development of each Certification Plan. The Independent Certifier will leverage in such Certification Plans the available experience in the Independent Certifier's team. Relevant accreditations of the Independent Certifier's team include a mix of quality standards and Quality Management Systems as follows (or their international equivalent):

- (a) Conformity assessment Requirements for bodies certifying products, processes and services (AS/NZS ISO/IEC 17065:2013)
- (b) General criteria for the operation of various types of bodies performing inspection (AS/NZS ISO/IEC 17020:2000)

- (c) Quality management systems Requirements (AS/NZS ISO 9001:2016)
- (d) Quality management systems Fundamentals and vocabulary (ISO 9000:2015)

Certification Plan reviews and updates will be provided in accordance with this deed, including regularly and following significant events. The Independent Certifier will conduct internal audits of the Certification Plan at least every six months and will update the plan as the project progresses. A significant update is anticipated prior to commencement of the Completion Phase Services.

4. INDEPENDENT CERTIFIER'S INDEPENDENCE AND INTERNAL PROCESSES

4.1 Independent Certifier's governance and assurance of independence

The Independent Certifier will implement a governance structure that supports the intended certification outcomes and will ensure that the Services are independent, compliant and effective:

- (a) An Independent Certifier's sponsors team, with representation of all the Independent Certifier's consortium partners, that will meet regularly, at least monthly, to discuss the Independent Certifier's team performance and consider management level feedback from the Principal and contractors, and any other key concerns raised by the Independent Certifier's team;
- (b) Project-specific certification training and briefings to core team members and one, consistent pool of specialists;
- (c) Rigorous review processes for compliance issues raised by specialists, with involvement of technical coordinators, core team members and the Independent Certifier's Representative as appropriate, during design and construction; and
- (d) As necessary, impartiality, independence and Competence Management Systems in line with ISO 17065 requirements for certification bodies (CERTIFER SA is accredited for specific certification services (scope is available at www.cofrac.fr).

4.2 Lines of authority and delegations

Lines of authority for the Independent Certifier are through the Independent Certifier's Representative, to core team members, to technical coordinators and finally specialists. The Independent Certifier's Representative will have ultimate responsibility to communicate with the Principal and the contractor on any compliance issues, on key personnel changes and changes to the Certification Plan. The Independent Certifier's Representative will provide certification on design packages, based on appropriate consultation within the Independent Certifier's team. The Certification Plan will include a delegation of authority matrix to ensure clarity on levels of authority within the Independent Certifier's team.

4.3 Document management and collaboration system

The Independent Certifier will receive relevant design and construction documentation through the Principal's preferred document management and collaboration system, Teambinder. The Independent Certifier will communicate all relevant findings on compliance, and certification through this system as relevant for each Design Documentation package (or lot), Design Stage, Portion and Milestone. The Independent Certifier will ensure that all of the Independent Certifier's project staff are briefed, with regular updates, on document control practices through project inductions, regular training on documentation of observations.

DESIGN PHASE SERVICES

5.1 Regular activities

The Certification Plan will outline the regular review and reporting activities during the Design Phase Services. The Independent Certifier will undertake:

- (a) regular (weekly) communication with the contractor for the Design Program, Construction Program and Monthly Reports; and
- (b) monthly high-level meetings with the Principal and/or the contractor (or more frequently if necessary for progress on design and/or certification).

5.2 Requirement management and RVTM

The Independent Certifier understands that the relevant contractor will implement a Requirements Management Process that amends and approves requirements, and records any decision on their application, and will provide the Principal with a regularly updated Requirements Verification Traceability Matrix (RVTM). The Independent Certifier understands that it can rely on this matrix for identification of all applicable requirements. The Independent Certifier further understands that the matrix will reference, for compliance purposes, available evidence against requirements.

5.3 Evidence-based levels of review

Based on the RVTM requirements above, the Independent Certifier proposes to use three evidence-based levels of review (refer to Figure 1). The 'level' indicates the extent of reviews and ensures the intended certification outcomes are achieved. Selection of the level of review will be informed by a risk assessment in relation to requirements in the RVTM. Proposed steps to select evidence-based levels of review with a risk-based approach (**RBA**) is explained in detail below.

Figure 1 Independent Certifier's proposed evidence based level of review against nonconformance risk levels

For Level 1 and Level 2 reviews in particular, the Independent Certifier will rely on certificates and approvals by other bodies and parties as appropriate and is called Cross-Acceptance in this methodology. Principles for Cross-Acceptance are described below and will be detailed in the Certification Plan.

The RBA provides a systematic approach to reviews of requirements, based on an assessment of compliance on two dimensions:

(a) The probability that the contractor will have difficulty with, or not ultimately achieve compliance with, a requirement; and

(b) The severity of consequences to the Principal if the non-compliance materialises.

The RBA will be progressively developed and fine-tuned to the specific context of this deed. The RBA will be collaborative, i.e. partly based on the Independent Certifier's previous local and international experience, and partly based on inputs by the Principal, its stakeholders, authorities, and partners as appropriate. The Independent Certifier will engage its core team, and technical coordinators and specialists where appropriate. For severity of consequence, RBA input will be provided primarily by the Principal, leveraging where possible any risk work already undertaken on Sydney Metro Northwest and Sydney Metro City & Southwest.

The RBA result for requirements is a non-compliance risk level (N/C Risk Level) in three tiers (Low/Medium/High) in the RBA matrix in Figure 2.

		N/C Risk Level			
<u>F</u>	Very likely	Medium High		High	
Very likely Likely Unlikely		Low Mediur		n High	
Pro	Unlikely	Low Low		Medium	
		Low	Medium	High	
		Severity of consequence			

Figure 2 Non-conformance risk levels in RBA matrix

5.4 Evidence and Cross-Acceptance Principles

The Independent Certifier will consistently apply Cross-Acceptance Principles for reports, certificates and approvals from contractors, the Principal, test bodies, third bodies, Authorities and similar. To optimise certification efforts, the Independent Certifier will work with the Principal to avoid duplication of reviews in cases where appropriate evidence for certification purposes is available, including reports, documented reviews and approvals.

Cross-Acceptance Principles will be based on one or more of the following conditions:

- (a) Relevant contractors have received accreditation by Asset Standards Authority as an Authorised Engineering Organisation;
- (b) Sydney Metro standard design review procedures, surveillance procedures, and reporting templates are sound and fit for purpose;
- (c) Testing contractors and agencies have received appropriate accreditation for their procedures, tests and reports, or are generally competent and recognized bodies; and
- (d) Other certificates are issued by accredited bodies and independent third parties, including other Independent Certifiers on the Sydney Metro Northwest project in respect of Rolling Stock, Signaling CBTC, CCS and Communications Systems.

5.5 Design review process

The Independent Certifier is committed to a design review and certification strategy that is collaborative and productive. As part of regular process reviews, the Independent Certifier will obtain from the contractor the number of design documentation packages (or lots), their scope, and a design delivery program. The Independent Certifier will obtain information from the Principal on which packages it intends to provide to the Independent Certifier for certification. The Independent Certifier will then determine:

(a) the proposed level of review based on the results from the RBA and non-conformance risk levels carried out in cooperation with the Principal; and

(b) allocation of Work Package Lead, Technical Coordinator, and relevant Specialists to each design package.

Throughout the design review and certification processes the Independent Certifier's team will work collaboratively and proposes to use a framework for a Productive Certification Strategy that is based on Responsiveness, Iterative Approach, Impartiality and Tracking of Design developments (refer to Figure 3).

Figure 3 Productive Certification Strategy

In Design Stage 1 and Design Stage 2, the overall objective of the Independent Certifier's core team will be to provide independent professional opinion to best guide the contractor and the Principal towards compliance. The core team will attend design meetings and workshops and technical specialists will be invited if required. Any comments during Design Stage 1 and Design Stage 2 will be confirmed, for purposes of transparency and accuracy, on TeamBinder. In Design Stage 1 and Design Stage 2, the Independent Certifier will obtain from the Principal the results of their reviews to become an informed Independent Certifier, to support its obligation to flag issues early, to brief relevant Independent Certifier specialists and gauge whether nonconformance risk levels and the level of review corresponds to the actual design progress.

In Design Stage 3, the Independent Certifier will receive Design Documentation packages (or lots) that the Principal has selected for independent certification, with relevant parts of the RVTM. The type of documentation that is needed for compliance evidence to certify Design Stage 3 is listed in Table 2.

Document types that the Independent Certifier will be required to review for Design Phase Services may consist of all documents listed as compliance evidences in the RVTM

Design related evidence	Certification documents	Approval documents	
 Project Plans Specifications Drawings Calculations Technical Descriptions Test Programs Inspection and Test Plans (ITPs) 	 Certificates provided by the contractor under obligations of the relevant contract with the Principal and/or TAO accreditation Certifications provided by the Proof Engineer, where required Independent bodies Certificates (e.g. ISA) 	 Approvals provided by the Principal & Authorities All third party agreements that impact the contractor scope and certification Reports produced by the Principal's auditors, Site Engineers/Surveillance Officers 	

The Independent Certifier relevant Work Package IC Lead will then distribute the package to allocated specialists. The Independent Certifier will respond to the contractor on design packages within the nominated time. Should any compliance issues be identified, these will be listed with appropriate references, an explanation of evidence required, and whether the issue may qualify as a minor error or omission. The results of the review will be consolidated by the Technical Coordinator and approved by the Independent Certifier Work Package Lead.

The Independent Certifier Work Package Lead will provide any compliance issues via PDCS/Teambinder. The Independent Certifier Work Package Lead will have the responsibility to provide the contractor with every opportunity to demonstrate compliance. If additional evidence can be made available without design amendment the Independent Certifier will minimise response times in review of such evidence. If the contractor considers that design amendments are necessary, we will obtain a design program update and schedule reviews for a timely response.

5.6 Design review program

The Independent Certifier will maintain a single integrated design review program for the works. Allocated specialists will be informed of the design review program for Design Stage 3, and for Design Stage 1 and Design Stage 2, if required.

In accordance with clause 4.7 of this deed, the Independent Certifier will be provided with the Design Submission Program and weekly updates of the Design Submission Program during the period that the PSD/MGF Contractor is carrying out design activities under the DSI Contract. The Independent Certifier will review the Design Documentation in accordance with the timeframes referred to in Schedule 1 of this deed. The Independent Certifier is proposing to allocate its specialist resources on the basis of a five-week 'frozen' design review look-ahead and will use best endeavours to accommodate any late schedule changes and to mitigate any effects of such late schedule changes. For any revised Design Stage 3 Design Documentation, the Independent Certifier will review the revised Design Stage 3 Design Documentation in accordance with the timeframes referred to in Schedule 1 of this deed. The Independent Certifier will use best endeavors to minimise response times for minor design amendments.

5.7 Design Certification

Following the close-out of compliance issues for each design package, applicable design certificates will be issued by the Independent Certifier's Representative. The Independent Certifier's Representative, or its authorised delegate, will provide the certificate on recommendation from the Discipline Lead and check that the design review process has been correctly applied (including level of review and consideration by the contractor of the Principal's comments).

Compliance issues that are minor errors or omissions and/or are approved departures from requirements, will not cause the Independent Certifier to not provide certificates. The Independent Certifier will work closely with the Principal, authorities, stakeholders and the contractor to understand any criteria for minor non-compliances and provide feedback as appropriate based on specific metro project experience.

6. **COMPLETION PHASE SERVICES**

6.1 Completion Phase Services mobilisation

Prior to commencement of completion works, the Independent Certifier will confirm the Completion Phase Services team and discuss with the Principal and the contractor, the most appropriate office location for the Independent Certifier's Core Team (full-time). The Certification Plan will be updated prior to mobilisation with relevant resources, details on the Independent Certifier Services, and safety management. The Independent Certifier anticipates weekly internal team meetings:

Internal Weekly Meeting Agenda items

- (a) Safety issues for any site visits and/or inspections;
- (b) Surveillance by the Principal and whether complementary surveillance is appropriate;
- (c) HPs and WPs to be attended;
- (d) Any issues arising out of the previous week's completion activities;
- (e) Planned activities for the week ahead;
- (f) Any feedback from relevant contractor(s) and/or the Principal on the Independent Certifier's activities; and
- (g) Records management.

6.2 Completion Phase Services

The Independent Certifier's Completion Phase Services are designed around the Principal's resources having primary responsibility for carrying out surveillance and inspection activities. The Independent Certifier will inform the Principal on its independent professional opinion on surveillance frequencies, reporting templates and content. The Independent Certifier will aim to provide the contractor, in collaboration with the Principal, with every opportunity to demonstrate compliance and receive certificates, subject to application of relevant standards, technical criteria and risk assessments.

In relation to evidence required for certification, we will collaborate with the Principal on RVTM updates to establish what primary evidence (from the Independent Certifier's inspections) and secondary evidence (from review of the Principal's reports and reports, certificates and approvals) will be needed. The documents for compliance evidence during completion, testing, commissioning and construction will be comprehensively addressed in the updated Certification Plan. The types of document that the Independent Certifier requires are set out in Table 3:

Document types that the Independent Certifier will be required to review for Completion Phase Services may consist of all documents listed as compliance evidences in the RVTM

Testing documents	Certification documents	Approval documents
 Inspection and Test Plans (ITPs) Test Procedures for all Test Reports Test Reports Type Tests Factory Acceptance Tests (FAT) Integrated Factory Acceptance Tests (IFAT) Integration tests Systems Integration Acceptance Tests (SIAT) Acceptance & Commissioning Test 	 Certificates provided by the contractor under obligations of the relevant contract with the Principal and/or TAO accreditation Certifications provided by the Proof Engineer Independent bodies certificates (e.g. ISA) 	 Approvals provided by the Principal & Authorities All third party agreements that impact the contractor scope and certification Reports produced by the Principal's auditors, Site Engineers/Surveillance Officers

6.3 Hold Points and Witness Points nomination

The Independent Certifier anticipates that review of Contractor Inspection and Test Plans (**ITPs**) will be available during design development and based on the RBA we will undertake the following:

- (a) Nominate additional Hold Points (HPs) and Witness Points (WPs) as appropriate;and
- (b) Nominate its attendance at selected HPs and WPs.

Where the main contract between the Principal and the contractor is the incentivised ITC form of contract, such contract has nine key principles for successful delivery, which characterise a high level of collaboration between the contractor and the Principal. The Independent Certifier anticipates that it will nominate additional HP and WP by exception only.

For station works, the form of contract seeks to separate the completion of station works with an interfacing agreement from over station development for the purpose of timely commencement of operations. The Independent Certifier anticipates that it will nominate additional HP and WP by exception only.

6.4 The Independent Certifier's Inspection and Surveillance Activities

During Completion Phase Services, the Independent Certifier will establish a **surveillance and monitoring 'by-exception' program'** and rely, as much as possible in our independent professional opinion, on evidence provided by the contractor and surveillance and inspection by the Principal. The Independent Certifier will implement, for certification purposes, a level of review process similar to the Independent Certifier's design reviews.

Surveillance will be carried when specific requests for surveillance and/or inspection are made by the Principal.

Additional surveillance may be carried out based on the following:

- (a) Specific requests for surveillance and/or inspection that are made by the Principal;
- (b) Complex trials and commissioning tests that are difficult to capture comprehensively in reports and diaries;
- (c) Any first events after changes to records requested for certification evidence; and/or
- (d) First events for revised construction methods, or first recurrent construction or installation activities.

The RBA will be regularly updated during the Completion Phase Services to determine appropriate inspection and surveillance activity by the Principal, and the Independent Certifier as required. The Independent Certifier will conduct general desktop surveillance at a minimum frequency of once per month per works package, further detailed in Table 4.

Table 4 Minimum inspection and surveillance activity

Independent certifier package for the Works	All other independent certifier packages		
 Minimum frequency of once per month 3 days for every Milestone 3 days for 	 Minimum frequency of once per month 1 day for every Milestone 1 day for 		
every Portion	every Portion		

The RBA will consider outcomes of design activities, manufacturer experience and reliability, innovation in products, complexity of product and/or service, expert opinion, construction events and stakeholder feedback. The Independent Certifier proposes to work closely with the Principal for RBA updates prior to, and during, Completion Phase Services. Specialist resources will not undertake desktop surveillance unless agreed prior by the Principal.

6.5 Joint inspections for achievement of milestones and completion of portions

The Independent Certifier acknowledges that some the independent certifier packages have Milestones and Portions which the Independent Certifier will certify on achievement and/or completion. The Independent Certifier understand that the deed requires the Independent Certifier to be present during scheduled joint inspections and provide a list of items that it believes are needed for completion. The Independent Certifier will work with the Principal and the contractor in the development of the Certification Plan to clarify what criteria apply to completion.

To flag issues early on critical interfaces, the Independent Certifier will address progress in its communications, on an ongoing basis and in close collaboration with the Principal and the contractor. This will allow relevant parties to communicate and find solutions.

6.6 **Independent Certifier's Performance**

This section identifies how the Independent Certifier will communicate with the Principal on its integrated performance across all independent certifier deeds between the Independent Certifier and the Principal for the Sydney Metro project. As required, for relevant works separately, the Independent Certifier will provide relevant updates specific to those works.

6.7 Feedback, performance reviews and managing change

Our organisational structure includes a critical sponsorship layer, focused on overall performance on the project (see the Organisational Chart in Returnable Schedule 12). Our sponsors will engage with Sydney Metro to obtain timely feedback on performance, achievement of intended certification outcomes, and resolve any issues that are raised.

All members of the Core Team will have the responsibility to build relationships with all stakeholders and invite feedback on an ongoing basis. The Independent Certifier will use qualitative and quantitative measures to assess its performance.

6.8 Independent Certifier progress and performance reporting

An 'Independent Certifier Dashboard' will be developed following our early engagement workshop with the Principal, and confirmed in our Certification Plan. Indicatively our dashboard will include performance indicators in Table 5.

Table 5 Indicative overview of Independent Certifier Performance metrics
